Clicking it navigates to the Sign In page displaying Username and Password dropdown fields and a Login button.	Functional	High	PASS
TC_002	UserStory_01	Verify Username field renders as a selectable dropdown with valid options	User is on the Sign In page.	1. Open the website URL (https://bstackdemo.com/). 2. Click the Username field. 3. Verify a dropdown list appears. 4. Verify the list includes demouser, image_not_loading_user, existing_orders_user, fav_user, and locked_user.	-	A dropdown list of valid demo usernames is displayed when the Username field is clicked.	A dropdown list of valid demo usernames is displayed when the Username field is clicked.	UI	Medium	PASS
TC_003	UserStory_01	Verify Password field renders as a selectable dropdown	User is on the Sign In page.	1. Open the website URL (https://bstackdemo.com/). 2. Click the Password field. 3. Verify a dropdown list of password options appears. 4. Verify 'testingisfun99' is available in the list.	-	A dropdown list of passwords is displayed when the Password field is clicked, including 'testingisfun99'.	A dropdown list of passwords is displayed when the Password field is clicked, including 'testingisfun99'.	UI	Medium	PASS
TC_004	UserStory_01	Verify successful login with valid credentials (demouser)	User is on the Sign In page.	1. Open the website URL (https://bstackdemo.com/). 2. Select 'demouser' from the Username dropdown. 3. Select 'testingisfun99' from the Password dropdown. 4. Click the 'Log In' button. 5. Verify redirect to the product listing page. 6. Verify header displays 'demouser' and a 'Logout' button. 7. Verify 'Sign In' link is no longer visible.	• Username: demouser • Password: testingisfun99	User is authenticated. System redirects to the product listing page. Header displays 'demouser' and a 'Logout' button. 'Sign In' link is hidden.	User is authenticated. System redirects to the product listing page. Header displays 'demouser' and a 'Logout' button. 'Sign In' link is hidden.	Positive	High	PASS
TC_005	UserStory_01	Verify successful login with existing_orders_user	User is on the Sign In page.	1. Open the website URL (https://bstackdemo.com/). 2. Select 'existing_orders_user' from the Username dropdown. 3. Select 'testingisfun99' from the Password dropdown. 4. Click the 'Log In' button. 5. Verify redirect to the product listing page.	• Username: existing_orders_user • Password: testingisfun99	Login succeeds. User is redirected to the product listing page with the header reflecting authenticated state.	Login succeeds. User is redirected to the product listing page with the header reflecting authenticated state.	Positive	Medium	PASS
TC_006	UserStory_01	Verify successful login with fav_user	User is on the Sign In page.	1. Open the website URL (https://bstackdemo.com/). 2. Select 'fav_user' from the Username dropdown. 3. Select 'testingisfun99' from the Password dropdown. 4. Click the 'Log In' button. 5. Verify redirect to the product listing page.	• Username: fav_user • Password: testingisfun99	Login succeeds. User is redirected to the product listing page with the header reflecting authenticated state.	Login succeeds. User is redirected to the product listing page with the header reflecting authenticated state.	Positive	Medium	PASS
TC_007	UserStory_01	Verify successful login with image_not_loading_user	User is on the Sign In page.	1. Open the website URL (https://bstackdemo.com/). 2. Select 'image_not_loading_user' from the Username dropdown. 3. Select 'testingisfun99' from the Password dropdown. 4. Click the 'Log In' button. 5. Verify redirect to the product listing page.	• Username: image_not_loading_user • Password: testingisfun99	Login succeeds. User is redirected to the product listing page with the header reflecting authenticated state.	Login succeeds. User is redirected to the product listing page with the header reflecting authenticated state.	Positive	Medium	PASS
TC_008	UserStory_01	Verify login fails with an invalid password	User is on the Sign In page.	1. Open the website URL (https://bstackdemo.com/). 2. Select 'demouser' from the Username dropdown. 3. Type an incorrect password. 4. Click 'Log In'. 5. Verify an error message 'Invalid Password' is displayed. 6. Verify the user remains on the Sign In page.	• Username: demouser • Password: (invalid selection)	error message 'Invalid Password' is displayed on the Sign In page. User is not redirected.	error message 'Invalid Password' is displayed on the Sign In page. And User is not redirected.	Negative	High	PASS
TC_009	UserStory_01	Verify login fails with an invalid Username	User is on the Sign In page.	1. Open the website URL (https://bstackdemo.com/). 2. Leave the Username dropdown empty (no selection). 3. Select 'testingisfun99' from the Password dropdown. 4. Click 'Log In'.	• Username: (empty) • Password: testingisfun99	error message 'Invalid Username' is displayed on the Sign In page. User is not redirected.	error message 'Invalid Username' is displayed on the Sign In page. User is not redirected.	Negative	High	PASS
TC_010	UserStory_01	Verify login is blocked when both Username and Password are not selected	User is on the Sign In page.	1. Open the website URL (https://bstackdemo.com/). 2. Leave both Username and Password dropdowns empty. 3. Click 'Log In'. 4. Verify login does not proceed. 5. Verify the user remains on the Sign In page.	• Username: (empty) • Password: (empty)	Login does not proceed. User remains on the Sign In page with no redirect and an error message if incorrect Username.	Login does not proceed. User remains on the Sign In page with no redirect and an error message if incorrect Username.	Validation	High	PASS
TC_011	UserStory_01	Verify locked_user account cannot authenticate	User is on the Sign In page.	1. Open the website URL (https://bstackdemo.com/). 2. Select 'locked_user' from the Username dropdown. 3. Select 'testingisfun99' from the Password dropdown. 4. Click 'Log In'. 5. Verify an error message 'Your account has been locked' is displayed. 6. Verify the user is not redirected.	• Username: locked_user • Password: (empty)	System displays an error message indicating the account is locked. User is not redirected to the product listing page.	System displays an error message indicating the account is locked. User is not redirected to the product listing page.	Negative	High	PASS
TC_012	UserStory_01	Verify authenticated user is redirected away from the Sign In page	User is logged in as demouser.	1. Open the website URL (https://bstackdemo.com/). 2. Log in with demouser/testingisfun99. 3. Manually navigate to the Sign In page URL. 4. Verify the user is redirected to the product listing page.	• Username: demouser • Password: testingisfun99	System redirects the authenticated user to the product listing page. The Sign In form is not displayed.	System redirects the authenticated user to the product listing page. The Sign In form is not displayed.	Edge Case	Medium	PASS
TC_013	UserStory_01	Verify login session persists across page navigation	User is logged in as demouser.	1. Open the website URL (https://bstackdemo.com/). 2. Log in with demouser/testingisfun99. 3. Navigate to the Favourites page. 4. Navigate back to the home page. 5. Verify the header still shows the authenticated username and Logout button.	• Username: demouser • Password: testingisfun99	User remains authenticated throughout navigation. Header continues to display 'demouser' and the 'Logout' button.	User remains authenticated throughout navigation. Header continues to display 'demouser' and the 'Logout' button.	Navigation	Medium	PASS
TC_014	UserStory_01	Verify successful logout from an authenticated session	User is logged in as demouser.	1. Open the website URL (https://bstackdemo.com/). 2. Log in with 'demouser/testingisfun99'. 3. Click 'Logout' in the navigation header. 4. Verify the header reverts to showing the 'Sign In' link. 5. Verify the username label and 'Logout' button are no longer visible.	• Username: demouser • Password: testingisfun99	User is logged out. Header displays the 'Sign In' link. Username and Logout button are removed from the header.	User is logged out. Header displays the 'Sign In' link. Username and Logout button are removed from the header.	Positive	High	PASS
TC_015	UserStory_01	Verify Logout button is not visible when no user is authenticated	User is not logged in.	1. Open the website URL (https://bstackdemo.com/). 2. Observe the header. 3. Verify the 'Logout' button is not displayed. 4. Verify the 'Sign In' link is visible.	-	'Logout' button is absent from the header. Only the 'Sign In' link is displayed.	'Logout' button is absent from the header. Only the 'Sign In' link is displayed.	Functional	Medium	PASS
TC_016	UserStory_01	Verify checkout page redirects to Sign In after logout	User has just logged out.	1. Open the website URL (https://bstackdemo.com/). 2. Log in with demouser/testingisfun99. 3. Click 'Logout'. 4. Navigate directly to the checkout URL. 5. Verify the user is redirected to the Sign In page.	• Username: demouser • Password: testingisfun99	User is redirected to the Sign In page. Checkout form is not accessible after logout.	User is redirected to the Sign In page. Checkout form is not accessible after logout.	Negative	High	PASS
TC_017	UserStory_01	Verify favourites page redirects to Sign In after logout	User has just logged out.	1. Open the website URL (https://bstackdemo.com/). 2. Log in with demouser/testingisfun99. 3. Click 'Logout'. 4. Navigate directly to the favourites URL. 5. Verify the user is redirected to the Sign In page.	• Username: demouser • Password: testingisfun99	User is redirected to the Sign In page. Favourites page is not accessible after logout.	User is redirected to the Sign In page. Favourites page is not accessible after logout.	Negative	High	PASS
TC_018	UserStory_01	Verify cart is cleared after logout and re-login	User is logged in with items in the cart.	1. Open the website URL (https://bstackdemo.com/). 2. Log in with demouser/testingisfun99. 3. Add a product to the cart. 4. Click 'Logout'. 5. Log back in with different credentials. 6. Open the cart panel. 7. Verify the cart is empty or has a different number of items.	• Username: demouser • Username: image_not_loading_user • Password: testingisfun99	After logout and re-login, the cart should contain no items or a different amount of items.	After logout and re-login, the cart contains the same items, like the first account.	Functional	Medium	FAIL

TC_019	UserStory_02	Verify after entering the Sign in page and navigating back the user should be redirected to the Home Page	User is on the home page.	1. Open the website URL (https://bstackdemo.com/). 2. Navigate to the Signin page. 3. go back to HomePage 4. Verify User is redirected to the HomePage.	-	User should be redirected to the HomePage after navigating back from the Sign in Page.	User isn't redirected to the HomePage after navigating back from the Sign in Page and redirected to the Google search engine instead.	Navigation	Medium	FAIL
TC_020	UserStory_02	Verify the global header is persistent across all pages	User is on any page of the application.	1. Open the website URL (https://bstackdemo.com/) and observe the header. 2. Navigate to the Sign in page and observe the header. 3. Navigate back to the home page. 4. Verify the header does. Sign and Logout cart icon is visible and	-	The global header containing the store logo, authentication controls, and cart icon remains visible and consistent across all navigated pages.	The global header containing the store logo, authentication controls, and cart icon remains visible and consistent across all navigated pages.	Functional	High	PASS
TC_021	UserStory_02	Verify clicking the store logo navigates to home page	User is on any page other than the home page.	1. Open the website URL (https://bstackdemo.com/). 2. Navigate to the Sign in page. 3. Click the store logo/brand name in the header. 4. Verify the user is navigated to the home page.	-	User is navigated to the product listing page when the store logo is clicked from any page.	User is navigated to the product listing page when the store logo is clicked from any page.	Functional	High	PASS
TC_022	UserStory_02	Verify Sign In link is visible for unauthenticated users	No user is authenticated.	1. Open the website URL (https://bstackdemo.com/). 2. Verify the 'Sign In' link is visible in the header. 3. Verify the username label and 'Logout' button are not displayed.	-	'Sign In' link is visible. Username and 'Logout' button are not present in the header.	'Sign In' link is visible. Username and 'Logout' button are not present in the header.	Functional	High	PASS
TC_023	UserStory_02	Verify authenticated state is correctly reflected in the header	User is logged in as demouser.	1. Open the website URL (https://bstackdemo.com/). 2. Log in with demouser/testingfun99. 3. Verify the header displays the username 'demouser'. 4. Verify the 'Logout' button is visible. 5. Verify the 'Sign In' link is no longer displayed.	• Username: demouser • Password: testingfun99	Header displays 'demouser' and a 'Logout' button. 'Sign In' link is hidden after successful authentication.	Header displays 'demouser' and a 'Logout' button. 'Sign In' link is hidden after successful authentication.	Functional	High	PASS
TC_024	UserStory_02	Verify cart badge updates when a product is added	User is on the product listing page.	1. Open the website URL (https://bstackdemo.com/). 2. Log in with demouser/testingfun99. 3. Click 'Add to Cart' on any product. 4. Verify the cart icon badge in the header increments by one.	-	Cart badge count in the header increases by 1 after adding a product.	Cart badge count in the header increases by 1 after adding a product.	Functional	High	PASS
TC_025	UserStory_02	Verify clicking the cart icon opens the cart side-drawer	User is on any page.	1. Open the website URL (https://bstackdemo.com/). 2. Click the shopping cart icon in the header. 3. Verify the cart side-drawer opens. 4. Verify the contents of the cart are displayed.	-	Cart side-drawer opens from the right side of the screen, displaying the current cart contents.	Cart side-drawer opens from the right side of the screen, displaying the current cart contents.	Functional	High	PASS
TC_026	UserStory_02	Verify cart badge shows zero when the cart is empty	User is logged in with an empty cart.	1. Open the website URL (https://bstackdemo.com/). 2. Log in with demouser/testingfun99. 3. Ensure the cart has no items. 4. Observe the cart icon badge in the header.	• Username: demouser • Password: testingfun99	Cart badge displays 0 when the cart contains no items.	Cart badge displays 0 when the cart contains no items.	Functional	Medium	PASS
TC_027	UserStory_02	Verify no duplicate navigation elements are present in the header	User is on the home page.	1. Open the website URL (https://bstackdemo.com/). 2. Inspect the header for duplicate Sign in links, logos, or cart icons. 3. Log in and re-inspect for duplicate Logout buttons or username labels.	-	No duplicate navigation elements (logos, links, buttons) are present in any header state.	No duplicate navigation elements (logos, links, buttons) are present in any header state.	UI	Medium	PASS
TC_028	UserStory_02	Verify the header does not obscure page content on scroll	User is on the product listing page.	1. Open the website URL (https://bstackdemo.com/). 2. Scroll down through the full product listing. 3. Verify the header remains visible. 4. Verify page content beneath the header is not obscured or overlapped.	-	Header remains visible and does not overlap or obscure any product content while scrolling.	Header remains visible and does not overlap or obscure any product content while scrolling.	UI	Medium	PASS
TC_029	UserStory_02	Verify the header remains stable when the page is zoomed-in	User is on the product listing page.	1. Open the website URL (https://bstackdemo.com/). 2. Zoom-in the P.L.P 3. Verify the header remains visible and stably interacting with the change of page size. 4. Verify page content of the header is not obscured or overlapped (LOGO, Login button, username)	-	Header remains visible and stably interacting with the change of page size and page content of the header is not obscured or overlapped (LOGO, Login button, username)	Header is cropped. Login button is misplaced and the LOGO gets smaller in size the further the page is zoomed-in.	UI	Medium	FAIL
TC_030	UserStory_02	Verify browser tab displays the correct page title	User is on any page.	1. Open the website URL (https://bstackdemo.com/). 2. Check the browser tab title.	-	Browser tab title displays 'StackDemo' or the expected application title.	Browser tab title displays 'StackDemo' or the expected application title.	UI	Low	PASS
TC_031	UserStory_02	Verify keyboard focus is visible on interactive header elements	User is on any page.	1. Open the website URL (https://bstackdemo.com/). 2. Use the Tab key to navigate through header elements (logo, Sign in/Logout, cart icon). 3. Verify each element displays a visible focus indicator.	-	Each interactive header element shows a visible focus outline/ing when tabbed to, meeting accessibility standards.	Orders, Offers, Favourites has no focus indicator on them	UI	Medium	FAIL
TC_032	UserStory_02	Verify header layout remains intact for a long authenticated username	User is authenticated with a username of maximum expected length.	1. Open the website URL (https://bstackdemo.com/). 2. Log in with a demo username (e.g. 'image_not_loading_user') that has an above-average character length. 3. Observe the header area displaying the username. 4. Verify the username does not overlap or break the layout of adjacent header elements.	• Username: image_not_loading_user • Password: testingfun99	The username is displayed fully without breaking the header layout or overlapping the Logout button and cart icon.	The username is displayed fully without breaking the header layout or overlapping the Logout button and cart icon.	UI	Low	PASS
TC_033	UserStory_02	Verify when clicking on Contact Us button in the footer the user is redirected to the contact page.	User is on the home page.	1. Open the website URL (https://bstackdemo.com/). 2. Scroll down to the footer. 3. Click on "Contact Us" button 4. Verify the user is redirected to the contact page.	-	User should be redirected to the contact page after Clicking the button.	User isn't redirected to the contact page after Clicking the button. And is directed to a 404 Error page.	Functional	Medium	FAIL
TC_034	UserStory_02	Verify when clicking on Privacy Policy button in the footer the user is redirected to the Privacy Policy page.	User is on the home page.	1. Open the website URL (https://bstackdemo.com/). 2. Scroll down to the footer. 3. Click on "Privacy Policy" button 4. Verify the user is redirected to the contact page.	-	User should be redirected to the Privacy Policy page after Clicking the button.	User isn't redirected to the Privacy Policy page after Clicking the button. And is directed to a 404 Error page.	Functional	Medium	FAIL
TC_035	UserStory_02	Verify when clicking on Careers button in the footer the user is redirected to the Careers page.	User is on the home page.	1. Open the website URL (https://bstackdemo.com/). 2. Scroll down to the footer. 3. Click on "Careers" button 4. Verify the user is redirected to the contact page.	-	User should be redirected to the Careers page after Clicking the button.	User isn't redirected to the Careers page after Clicking the button. And is directed to a 404 Error page.	Functional	Medium	FAIL
TC_036	UserStory_02	Verify when clicking on Privacy Policy Read More button in the footer the user is redirected to the Privacy Policy page.	User is on the home page.	1. Open the website URL (https://bstackdemo.com/). 2. Scroll down to the footer. 3. Click on "Privacy Policy Read More" button 4. Verify the user is redirected to the contact page.	-	User should be redirected to the Privacy Policy Read More page after Clicking the button.	User is redirected to the home page instead of Privacy Policy Read More page	Functional	Medium	FAIL
TC_037	UserStory_03	Verify the product listing page is the default landing page	User opens the application for the first time.	1. Open the website URL (https://bstackdemo.com/). 2. Verify a grid of product cards is displayed immediately. 3. Verify no redirect occurs.	-	A grid of product cards is displayed on page load at the root URL without any redirect.	A grid of product cards is displayed on page load at the root URL without any redirect.	Functional	High	PASS
TC_038	UserStory_03	Verify each product card displays image, name, price, and Add to Cart button without logging in	User is on the product listing page.	1. Open the website URL (https://bstackdemo.com/). 2. Inspect any product card in the grid. 3. Verify a product image is present. 4. Verify the product name is displayed. 5.
